

National Community Reinvestment Coalition Analysis Small Business Lending Deserts and Oases

APPENDIX:

Composite Ranking – Small Business Lending in 2012 by County

Key

Rank – Ranking of county by composite index

State – State in which county is located

County – Name of county for which data is provided

Metropolitan Status – Metropolitan Statistical Area (MSA), Metropolitan Division (MD), or Non-metro County

Small Business Lending Ratio – Ratio of loans divided by small businesses

Small Business Lending Index – Percentile for the county for the small business lending ratio; higher percentages mean more access to loans

Smallest Business Lending Ratio – Ratio of loans to small businesses with revenues under \$1 million divided by small businesses with revenues under \$1 million

Smallest Business Lending Index – Percentile for the county for the smallest business lending ratio; higher percentages mean more access to loans

CDFI Microlending Ratio – Number of Community Development Financial Institution (CDFI) microloans per 10,000 microbusinesses in the county

CDFI Microlending Index – Percentile for the county for the CDFI microlending ratio; higher percentages mean more access to loans

SBA 7(a) Lending Ratio – Number of Small Business Administration (SBA) 7(a) loans per 10,000 small businesses in the county

SBA 7(a) Lending Index – Percentile for the county for SBA 7(a) lending ratio; higher percentages mean more access to loans

Composite Index – Weighted index (see page 48 of text for detailed description); higher numbers (numbers closer to one) mean more access to loans

Quintile – Quintile of county by access to small business loans; in descending order the quintile designations are Top (most access), Second, Third, Fourth, Bottom (least access)
