JUST ECONOMY
CONFERENCE  2019

What has CoreLogic seen and learned in the past year?

2018 NATURAL HAZARD REPORT

Hurricanes Florence & Michael

Table 1: Hurricane Florence Residential and Commercial Loss

Peril	Residential and Commercial Total Losses in Billions (U.S. Dollars)
Wind	1 – 1.5
Flood	19 – 28.5
Total	20 – 30

(Source: CoreLogic)

Table 2: Hurricane Michael Residential and Commercial Loss

Peril	Residential and Commercial Losses in Billions (U.S. Dollars)
Wind	2 – 3
Storm Surge (including NFIP)	0.5 – 1

(Source: CoreLogic)

Flood Risk Beyond the Special Flood Hazard Area (SFHA)

Table 5: Residential and Commercial Insured and Uninsured (Storm Surge and Inland)
Flood Loss Estimation for Hurricane Florence (\$ Billion)

State	Insured Flood Loss	Uninsured Flood Loss
North Carolina	4.5 – 7.5	10 – 14.5
South Carolina	1 - 2	2.5 – 3.5
Virginia	~ 0.5	~ 0.5
Total	6 - 10	13 – 18.5

(Source: CoreLogic)

59% of properties affected by Hurricane Florence were **outside** the Federal Emergency Management Agency (FEMA) SFHA

Wildfire Activity Continues to Rise

Top 10 Years of Wildfire Burned Acres in U.S. History

Wildfire Activity Continues to Rise

Table 7: Western States with at Least One Wildfire Greater than 50,000 Acres in Size in 2018 as of November 2018

State	# fires > 50k acres
California	7
Colorado	3
Idaho	4
Nevada	4
New Mexico	2
Oklahoma	2
Oregon	7
Texas	1
Utah	3
Washington	3
Wyoming	1

How can natural catastrophe models be used to assess actual and potential damage?

DISASTER ASSESSMENT

March 11-13, 2019

Washington Hilton Hotel
Washington, DC

THE **JUST** **ECONOMY**
CONFERENCE  2019

Starts with Risk Management

- Community risk managers vs. insurers
- Determine expected loss in advance
- Identify possible events that result in the largest damage
- Maps show how risk differs across an area

Starts with Risk Management

Carr Fire - California

CONFERENCE  2019

Damage Assessment: Pre-Event

March 11-13, 2019

Washington Hilton Hotel
Washington, DC

THE **JUST** **ECONOMY** CONFERENCE  2019

Understand Risk

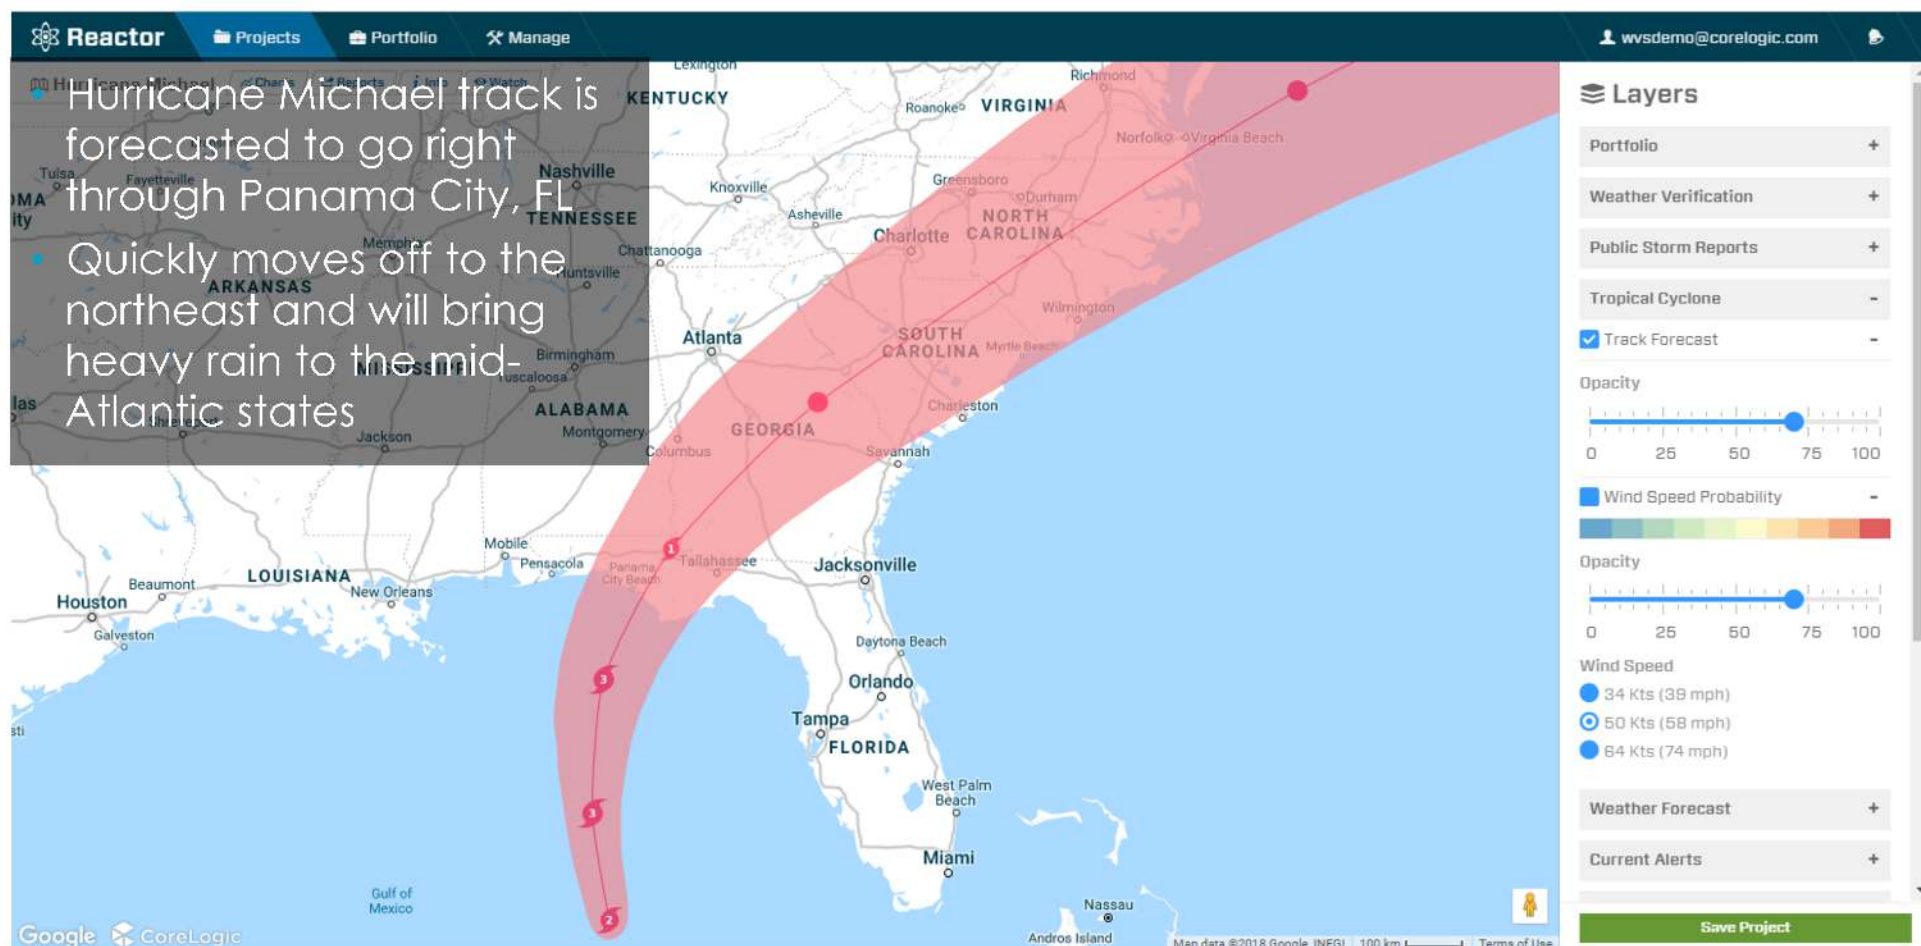

Pre-Event Evaluation

- Estimated storm track
- Wind, surge, precipitation maps based on this

Estimate Damage

- Probabilistic model creates stochastic events
- Compute impact → both areas affected and estimate of damage

Hurricane Michael: Forecast Track

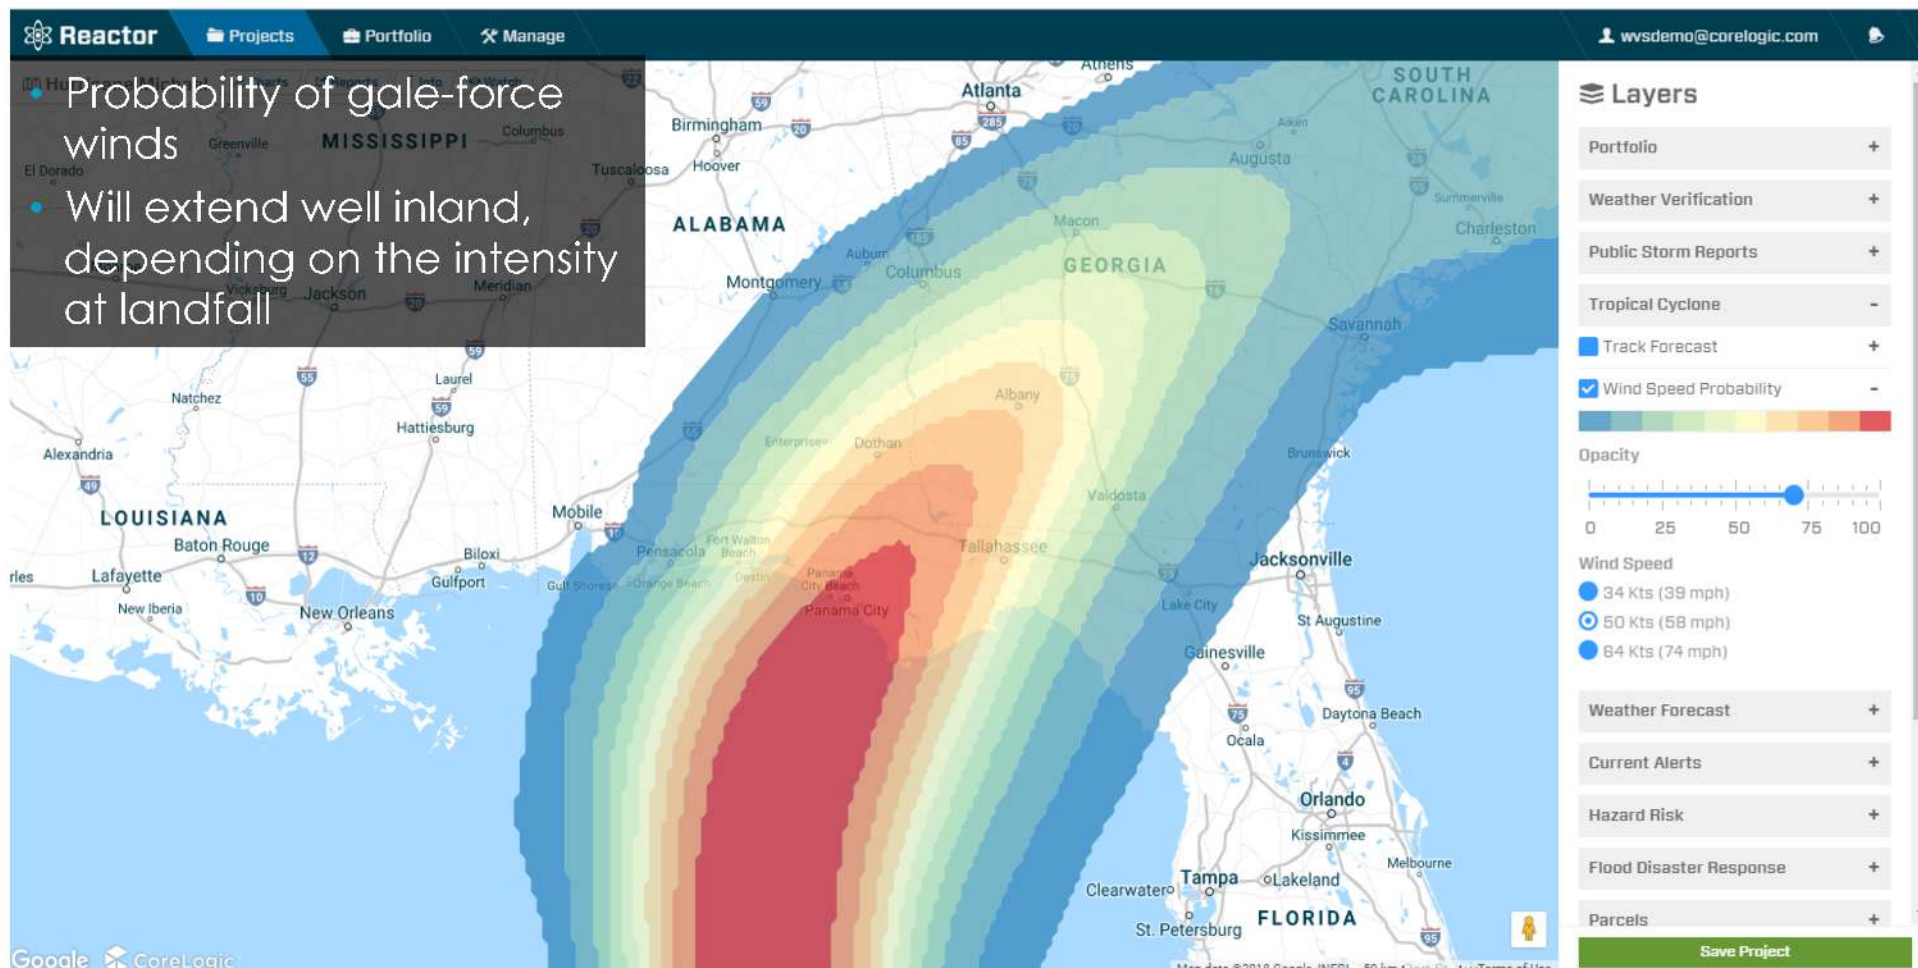

March 11-13, 2019

Washington Hilton Hotel
Washington, DC

THE **JUST** ECONOMY
CONFERENCE  2019

Hurricane Michael: Wind Speed Probability

March 11-13, 2019

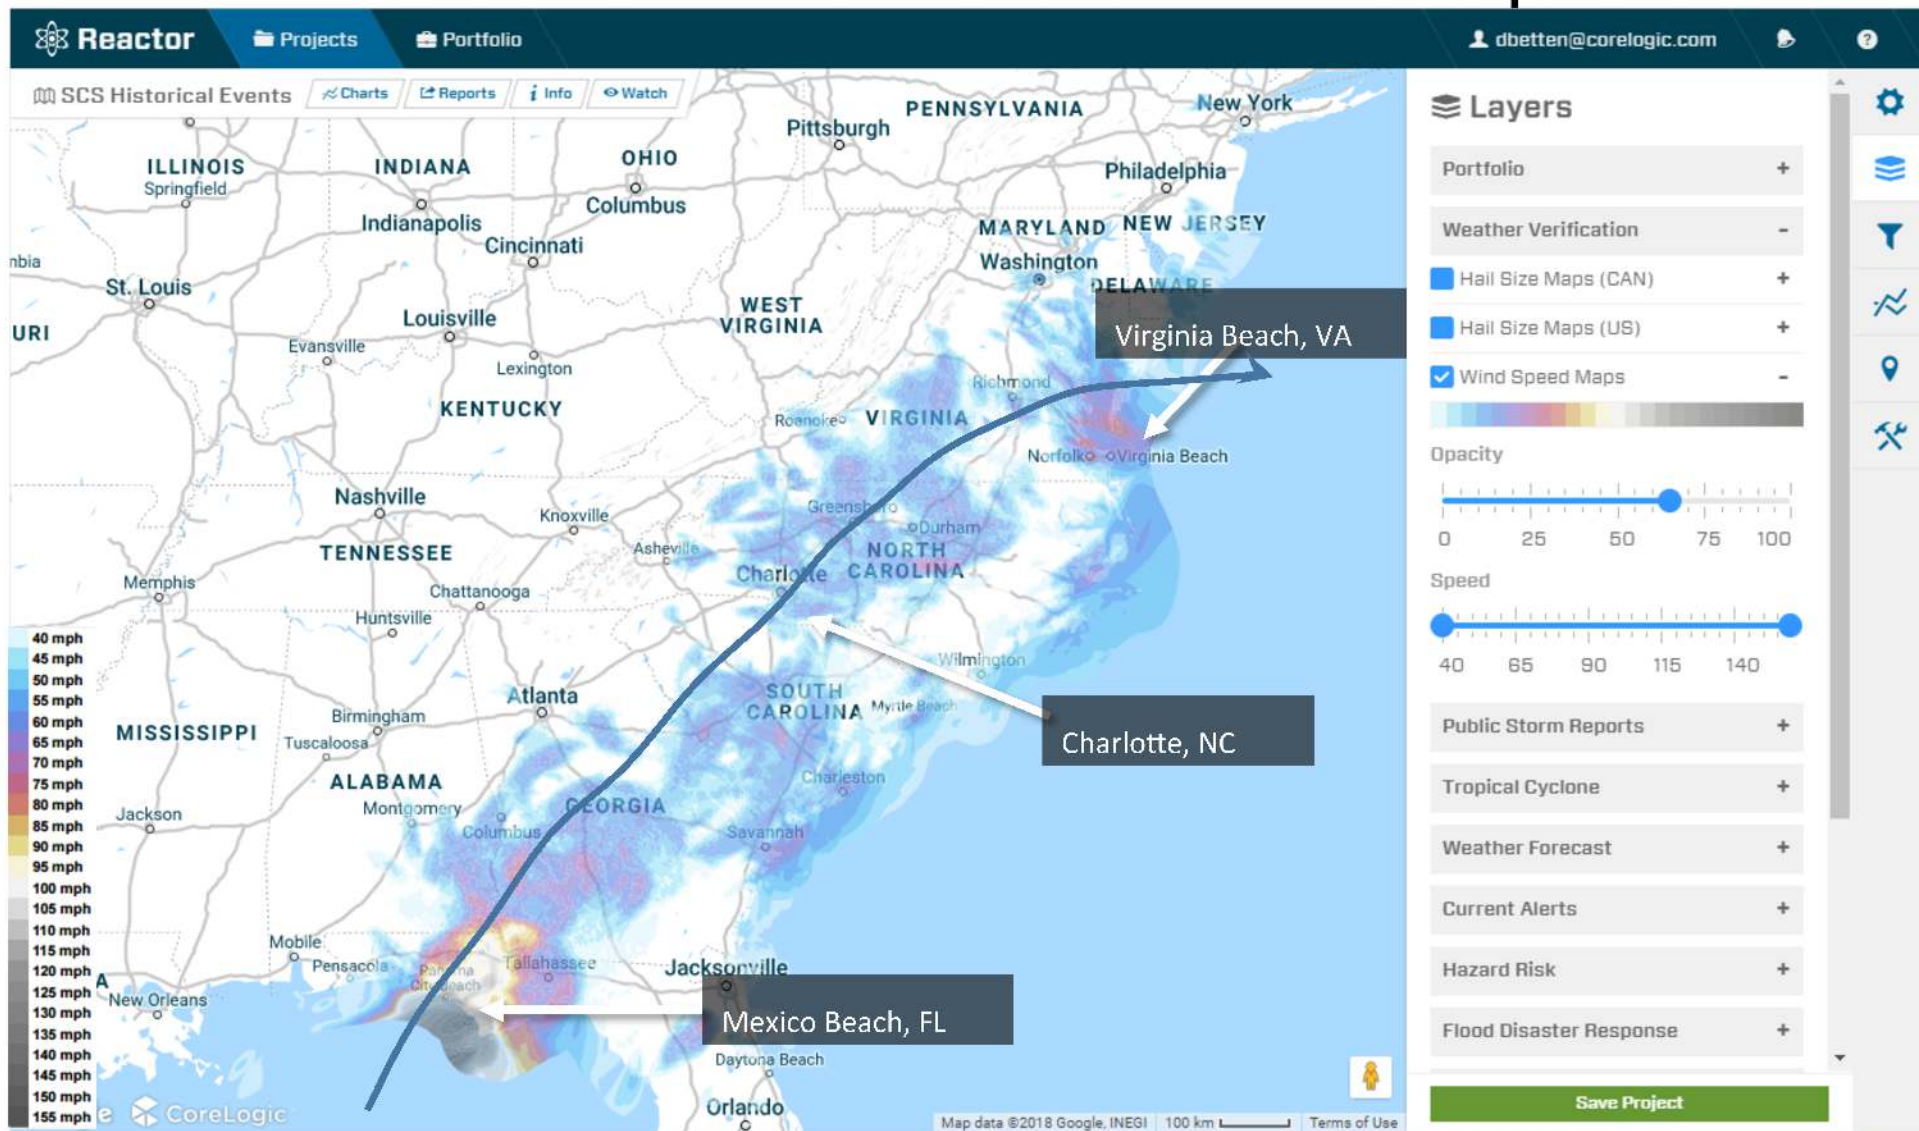

Washington Hilton Hotel
Washington, DC

THE **JUST** ECONOMY CONFERENCE 2019

Weather Forensics

- During and after: capture event characteristics
 - Satellite images
 - Radar information
 - On-the-ground verification
- Location-specific knowledge → loss estimation

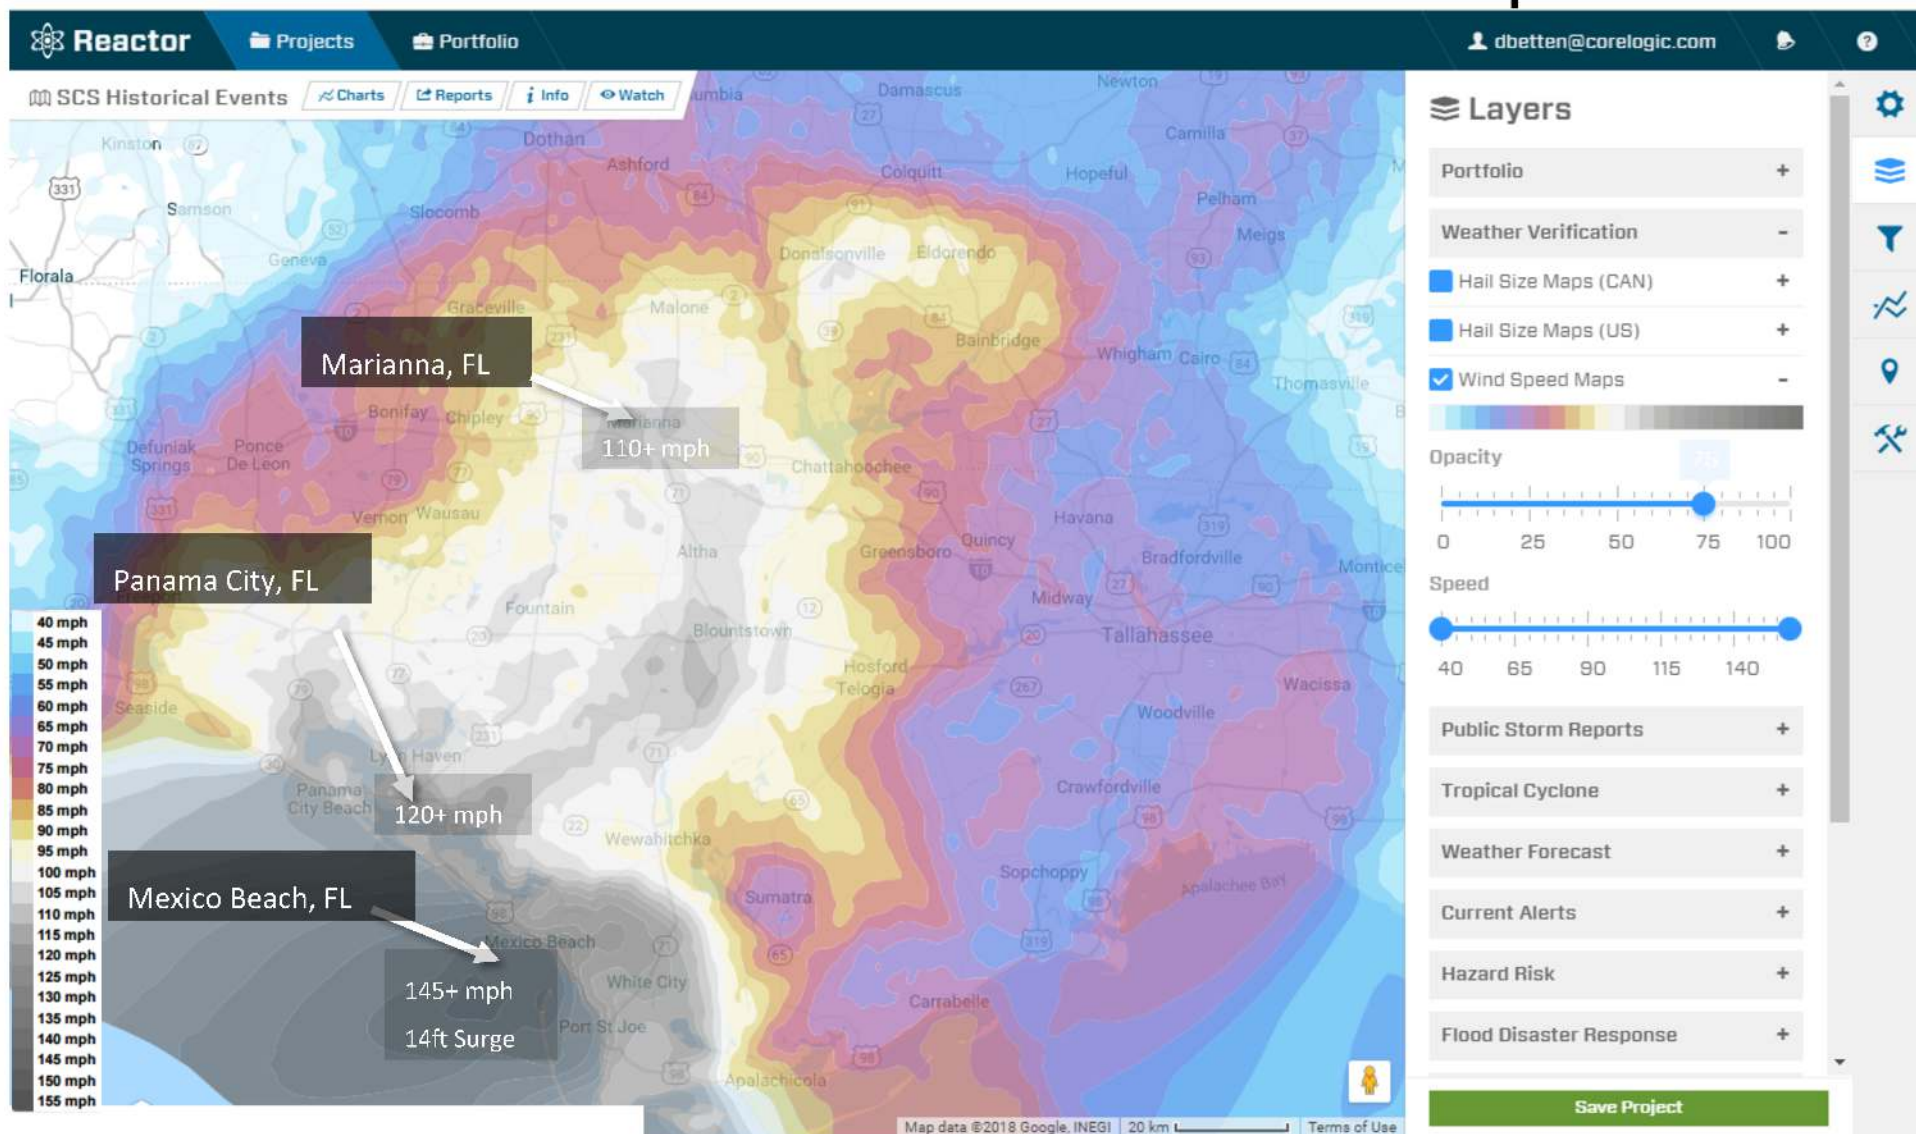

Hurricane Michael: Wind Speed

March 11-13, 2019

Washington Hilton Hotel
Washington, DC

Hurricane Michael Losses

Hurricane Michael Combined Residential and Commercial Loss (Wind + NFIP and Non-NFIP Storm Surge)

	Loss in Billions of Dollars
Florida	\$2.5 to \$4
Other States*	\$0.5 to \$1
Total	\$3 to \$5
